EXPERIENCE SUMMARY

- Designed and Prototyped a website using Photoshop and Adobe XD for a theatre company called Theatre Vertigo
- Designed web applications utilizing HTML, CSS, JavaScript, and Bootstrap 4
- Leveraged SQL along with several RDMSs to develop and maintain application databases

SKILLS SUMMARY

Programming/Development: HTML/CSS, JavaScript, SQL, jQuery
Frameworks/Libraries: Bootstrap
Database: MySQL
IDEs: Visual Studios
Version Control: Git and GitHub
Creative: Photoshop and Adobe XD
Non-Technical: Communication Skills, Team Player, Dependable, Passionate, AGILE/SCRUM

WORK EXPERIENCE

Software Developer Intern | Prosper IT Consulting - Portland, OR   June '21 – June '21
- Skills set: Photoshop, Adobe XD, Teamwork, Azure DevOps, AGILE/SCRUM
- Project Summary: My team and I created a new design for a theatre company website. Using Photoshop, I created wireframes and mockups of what the new website would look like. Once the mockups were complete, I started prototyping with Adobe XD. I created anchor links to my other pages and created an animation feature for the navigation bar.

Server | The Athletic Club Oakland – Oakland, CA   May '18 – March '20
- Through excellent customer service, I increased sales and created loyal clientele. Displayed great teamwork and professionalism under pressure.

EDUCATION AND TRAINING

UX/UI Design | The Tech Academy   Graduation Date: July 2021

The UI/UX Designer Boot Camp was created for people who not only want to learn to code, but who want to create aesthetically pleasing and easy-to-use programs and websites. Graduates of this boot camp are full-stack web and software developers, who are also trained in design. This boot camp covers several programming languages, including front end and back-end development. Once the student is trained in basic coding, they move into creating sleek user interfaces with a user-friendly experience.

BA in Mass Communication | Iona College '09
